Q1. <b>First Name:</b>	Natasha Paul
Q2. <b>Surname Name:</b>	not answered
Q3. <b>Address: (remains confidential)</b>	not answered
Q4. <b>Email: (remains confidential)</b>	not answered
Q5. <b>Organisation if applicable</b>	not answered
Q6. <b>Do you wish to speak at the Council meeting in support of your submission?</b>	No
Q7. <b>Please provide your contact details</b>	not answered
Q8. <b>KEY ISSUE 1: Funding of footpath and cycleways maintenance and renewal programme. Council have two options. Select below.</b>	Option 1: Council contributes rate funding of \$250,000 to maintain current programme (COUNCIL'S PREFERRED OPTION)
Q9. <b>KEY ISSUE 2A: Future of Harbour Board Building</b>	Option 1: Sell the Harbour Board Building (COUNCIL'S PREFERRED OPTION)
Q10. <b>KEY ISSUE 2B: Future of History House Museum building</b>	Option 1: Sell the History House Museum building (COUNCIL'S PREFERRED OPTION)

**Q11. OTHER MATTERS FOR CONSULTATION**

Revenue & Financing Policy - Comply with legislation and adopt the proposed amended policy (COUNCIL'S PREFERRED OPTION)	Yes
Significance & Engagement Policy - Adopt the Significance & Engagement Policy as it is (COUNCIL'S PREFERRED OPTION)	Yes
Treasury Management Policies - Adopt the Treasury Management Policies as they are (COUNCIL'S PREFERRED OPTION)	Yes
Council Fountain not to be renewed - Do NOT pay to repair or renew the Council fountain (COUNCIL'S PREFERRED OPTION)	Yes
Revenue & Financing Policy - Suggest Council make a change to the policy and associated LTP and Supporting documents	Yes
Significance & Engagement Policy - Suggest Council make changes to the policy	Yes
Treasury Management Policies - Suggest Council make changes to the policies	Yes
Council Fountain - Continue to pay for repair/renewal costs for the Council fountain	No

---

**Q12. FEEDBACK ON THE ISSUES:**

The fountain is old school and out of date! Money could be put to use in better/needed areas of the town! The white two story building across the road is an eye sore too for visitors coming to our town

---

**Q13. YOUR FEEDBACK ON PROPOSED RATES**

We pay just under \$4,500 for our rates which is a lot!! We have sink holes that appear outside our gate on the lawn and on the side of the road right by our driveway and these get filled with gravel and tar sealed over. The gravel washes out and blocks up the storm water drains..... Close High street from the round about to past the hospital and fix the pipes - they are old and cannot handle the amount of houses attached to them anymore. Putting band aids on it is not a fix and will not last forever.

---

**Q14. PLEASE ADD ANY ADDITIONAL DOCUMENTS YOU MAY LIKE TO INCLUDE HERE** not answered

---

**Q15. YOUR ADDITIONAL FEEDBACK/COMMENTS**

No thanks

---

Council Fountain not to be renewed - Do NOT pay to repair or renew the Council fountain (COUNCIL'S PREFERRED OPTION)	Yes
Council Fountain - Continue to pay for repair/renewal costs for the Council fountain	No
<b>Q12. FEEDBACK ON THE ISSUES:</b>	
1. Utilise existing buildings and unused land, Maori or not, to be a leading town to minimalise elderly homelessness and car living homeless people/families by providing discounted apartments and tiny home land at discounted rates. many towns have done this around the world. It works. Also more town CCTV so residents and visitors are more protected from theft. Also CCTV by the two cobden motorhome parks as known for theft and vandalism.	

**Q13. YOUR FEEDBACK ON PROPOSED RATES**

Fix highway 7 once and for all. Disallow all heavy vehicles over 6tonne. All trucks diverted to stronger roads. Get painted highway better designed to allow for cyclists and walkers off the road. Also fix contractual hours for all river rock collections near kaiata to Mon to Thursday 7am to 5pm to allow for local residents peace. Make the one operating on the far side of kaiata NOT do any sorting by the river but to transport all rock to the farm site 100m inland to protect kaiata residents peace.

---

**Q14. PLEASE ADD ANY ADDITIONAL DOCUMENTS**      not answered  
**YOU MAY LIKE TO INCLUDE HERE**

Significance & Engagement Policy - Suggest Council make changes to the policy	No
Treasury Management Policies - Suggest Council make changes to the policies	No
Council Fountain - Continue to pay for repair/renewal costs for the Council fountain	No

---

**Q12. FEEDBACK ON THE ISSUES:**

Im all for protecting our history and heritage, but the cost is too high especially when we have other projects like footpaths, water & waste management that need the spend more. The location of those two buildings away from the centre of town makes them difficult to turn into tourist attractions or businesses. I'd rather they were sold and hope that the developers can make something from them.

---

**Q13. YOUR FEEDBACK ON PROPOSED RATES**

Such a high increase is going to be very hard on my budget, but I do understand that if we want good infrastructure, we have to pay for it.

---

**Q14. PLEASE ADD ANY ADDITIONAL DOCUMENTS YOU MAY LIKE TO INCLUDE HERE** not answered

---

**Q15. YOUR ADDITIONAL FEEDBACK/COMMENTS**

This isn't said enough - the Grey District Council does a good job in what are very difficult circumstances!

---

**Q12. FEEDBACK ON THE ISSUES:**

I think selling off the history house building is a great idea. If possible it would be great to incorporate a mini museum in the new library so people can still experience our rich history. If it's in a place such as the library it might get more visitors

---

**Q13. YOUR FEEDBACK ON PROPOSED RATES**

People are struggling financially and increasing rate rises impacts everyone. I see this with people who rent houses, who's rents increased dramatically every time there is a rates increase. It's making living unaffordable. Please take some time to prioritize council spending and see if there is space to minimize rates increases

Treasury Management Policies - Suggest Council make changes to the policies	Yes

---

**Q12. FEEDBACK ON THE ISSUES:**

Sell the old houses to gain some funds and lease the land or build new to let and get additional income Fountain needed to be retained as it is an icon to the CBD Cycleway and footpath is also needed to attract more tourists and to help locals to explore and access to CBD

---

**Q13. YOUR FEEDBACK ON PROPOSED RATES**

The only attraction to people to come and stay in the west coast is the low rates and savings a household can make while living here. The national cost of living is unimaginably high and not sure will come down anytime soon. So the locals have only one option to keep their regional expenses in control. PLease do not increase rates any further, this may lead people to move out to vibrant places where they can access more lifestyle with the same price

**Q15. YOUR ADDITIONAL FEEDBACK/COMMENTS**

Congratulations on the work done and being complete so far as the Library but feel it is now time to get back to basics and support local community groups and progress dog friendly walkways. Revisiting the ban on dogs in the city centre should be on the cards as we don't want to be known as the unfriendliest dog town for visitors that travel with their pet family. I don't believe that 'every man and his dog' will visit town and let them excrete or run wild. Instant fines for that type of behaviour would discourage it.

#### Q12. FEEDBACK ON THE ISSUES:

In the current economic climate, I believe Council should prioritise the delivery of essential services and infrastructure maintenance above all else. Non-essential or "nice-to-have" projects should only be considered if there is a confirmed surplus, and after core services are fully funded and sustainably maintained. Ratepayers are facing significant financial pressure, and it is critical that Council spending reflects the practical needs of the community, rather than aspirational, collaborative or discretionary initiatives. While the fountain may hold some historical value, (definitely not aesthetic) it is important to consider not only the initial cost of repair or reconstruction, but also the ongoing burden placed on ratepayers due to recurring vandalism - which appears to occur on a semi-regular basis. In its current state, the fountain does not appear to offer sufficient public benefit to justify the repeated financial outlay required for maintenance and repair. A cost-benefit analysis would likely demonstrate that the value gained from the fountain is minimal compared to the continued expense it imposes. Given these factors, it would be more prudent to consider either decommissioning the fountain or redirecting the associated funds toward projects with broader community benefit or lower long-term costs.

---

**Q13. YOUR FEEDBACK ON PROPOSED RATES**

I wish to express concern regarding the proposed 20% rates increase for properties, specifically in the Runanga and Dunollie area, but my rationale applies broadly. This level of increase is not feasible for most ratepayers in these communities, which are well-recognised as low-socioeconomic areas. Property owners in these suburbs often do not have the financial capacity to absorb such significant cost increases, particularly when many are on fixed or limited incomes. To illustrate, an additional \$150 per quarter in rates represents, for some, an entire month's low-end scale power bill, or a week's worth of essential groceries. This proposed increase is not proportionate to current inflation levels, nor does it align with income growth - most notably, the most recent superannuation increase for a single person living alone was only 3.5% per annum. This clearly demonstrates a widening gap between expected household income and the rising cost of rates, in addition to the exorbitant cost of rising insurances combined. In the West Coast region, 19% of residents are reported as disabled, a figure notably higher than the national average of 17%. This demographic often faces additional financial challenges, particularly those reliant on disability benefits, however the increase in disability benefit was only 2.2-3.51% for this financial year. How will these people afford to cover your costs without starvation, forgoing essential health care, or risk losing their homes? The average household income on the West Coast is \$109,342, significantly lower than the national average of \$132,873. Additionally, household income growth in the region is already tracking 0.3% below the national average and is projected to decline further. This demonstrates that households in the region are already under economic pressure, and further increases in rates are not aligned with the financial realities faced by many West Coast residents. Source: <https://rep.infometrics.co.nz/west-coast-region/income-and-housing/household-income> I recently reviewed a report that indicated the West Coast has the third-highest average advertised salary in the country. Upon further investigation, I found that this figure is significantly skewed by the high volume of specialist health professional vacancies, which are a direct result of critical under-resourcing within the health sector. This statistic does not accurately reflect the true income levels of West Coast residents, many of whom rely on modest or fixed incomes. Relying on such misleading figures for rate increases or economic assessments overlooks the genuine financial pressures faced by a large portion of the community. It is also important to note that not every home or property across the district has experienced an increase in value. There are a fair few that have decreased in RV, or GV. Applying a uniform rates increase based on generalised property valuations fails to consider the varied circumstances across different suburbs. In the case of Runanga and Dunollie, this approach does not reflect the reality for many property owners, and disproportionately impacts those least able to afford it. I respectfully urge Council to reconsider the fairness and sustainability of the proposed increase for this community, and to take into account the broader economic pressures currently affecting households across the district. Accurate financial assessment and planning are crucial for upholding public trust.

- Q12. **FEEDBACK ON THE ISSUES:**

Re the Fountain - It is not maintained well currently. Paint is falling off it and it is a eyesore - so remove it.

**Q13. YOUR FEEDBACK ON PROPOSED RATES**

The proposed rate increase for this year is way too high. People are struggling now financially and so by increasing the rates this much you will have people that just can't afford to pay them and will lose their homes. Westland proposed rates are around half of Greymouth's proposed rates?? I understand that the Council has a backlog and are experiencing increases also, but with the economy the way it is this rates increase will tip some over the edge.

**Q15. YOUR ADDITIONAL FEEDBACK/COMMENTS**

I'm not a Grey District rate payer, but am in Greymouth almost daily and do love looking at the fountain. Such fun memories from childhood. Unrelated to the plan, but a couple of toilets down in Dixon park near the playground would be amazing, we don't visit as often anymore with multiple children plus toilet training it's just too much of a trek up the hill, and leaving any of the children unattended down in the park is not an option, neither is sending them by themselves up to a busy road.

**Q12. FEEDBACK ON THE ISSUES:**

Submission: The People's Fountain – A Community Legacy Worth Saving To the Grey District Council, The iconic Greymouth fountain is more than a structure of stone and water. it is a symbol of civic pride, community spirit, and the shared history of generations of West Coasters. Built in 1961 as a labour of love by the Greymouth Jaycees and gifted to the town's people, it has stood for over six decades as a quiet, graceful reminder of what a community can achieve together. While it is understandable that financial constraints limit its inclusion in the draft Long Term Plan, I urge the Council to explore and support a community-driven fundraising campaign to save and, if needed, replace the fountain, just as it was originally constructed. A collaborative fundraising effort involving local service groups such as Rotary, Lions, and potentially even the Canterbury Jaycees (as a nod to the original builders), could reignite the same spirit that brought the fountain into existence. Local businesses, families, and philanthropic trusts, including those funded through charitable gaming proceeds, could be approached to support a campaign to fund a like-for-like replacement. Let's call it what it truly is: The People's Fountain. Importantly, any replacement should honour the original design and inscription, which reads: "Centennial Fountain 1960 – Built and presented to the citizens of Greymouth by Greymouth Jaycee Inc." The heritage, the aesthetics, and the emotional connection must be preserved , not only for the sake of history, but for the future children of Greymouth who will one day splash around its base, just as many of us once did. This fountain has given joy, created memories, and stood the test of time. Let's now give back to it, and show that community spirit on the West Coast is still alive and well. All the very best, Adam Gilshnan

Council Fountain not to be renewed - Do NOT pay to repair or renew the Council fountain (COUNCIL'S PREFERRED OPTION)	Yes

**Q12. FEEDBACK ON THE ISSUES:**

Could the facade of one of the buildings be retained and a very basic hall be built on to the back for local groups to use, done with proceeds from the sale of the other? I like the idea of the fountain being painted a nicer colour and planted. Alternative idea, ball pit.

**Q15. YOUR ADDITIONAL FEEDBACK/COMMENTS**

Why not sell small parcels of land to help fund the smaller projects that generally has no council value or requires maintenance etc. Ngahere reserve is owned by council with very little use and during summer is a fire hazard. In addition it has no safe access if owners fence to there own boundaries, as well as a sunken culvit that needs replaced. The point is that some small parcels of land have very little community benefit and cost to maintain.

**Q12. FEEDBACK ON THE ISSUES:**

These old buildings need to go. No body can afford the bill to fix them up. Knock them down !!!!!!! Or if they are sold to someone who actually has the money do son and put the money into Dixon park or footpaths. Also get rid of the bloody Maori rates. They have land that they do nothing with that let's out town done. Look at the jr high howo g has it sat there for and one bloke tending to the lawns or garden when he can be bothered . Bloody disgrace. Greymouth will for ever be held back by them .

---

**Q13. YOUR FEEDBACK ON PROPOSED RATES**

While I understand what our rates are paying for this be breaking point for people. But I'm not in the position for the answer on this . I guess sometimes there is stupid spending at the expense of the rate payer and it's sum what frustrating. I guess when it comes to spending maybe more consultation with rate payers would be helpful. if they get .ore of a say maybe they will be less likely to moan.

**Q12. FEEDBACK ON THE ISSUES:**

Get rid of the fountain and replace with something that represents Greymouth maybe gardens too

---

**Q13. YOUR FEEDBACK ON PROPOSED RATES**

If the rates need to increase that's ok but we need to be able to see where the money is spent the new library is a good thing I'm really excited about it as I'm a book lover.

---

**Q14. PLEASE ADD ANY ADDITIONAL DOCUMENTS YOU MAY LIKE TO INCLUDE HERE** not answered

---

**Q15. YOUR ADDITIONAL FEEDBACK/COMMENTS**

I would love to see a bit of a spuce up around Greymouth like spraying all the gorse and planting nice trees plants. Dixon park needs urgent attention I am very disappointed with the park playing there as a child and now taking my grandson there the only difference is that you have taken things away and not replaced them and everything left is rotten and rusted. I don't want to be negative about things as Greymouth is a great place to live and I'm proud to be a third generation coaster.

**Q12. FEEDBACK ON THE ISSUES:**

I'm in favour of selling the two buildings on Gresson St. as long as you try to recover costs at least and not give them away for less than they owe you. The fountain is a difficult one, I'm of the generation that would like you to explore all avenues to try to find a solution to keep it. It's an icon. I know it costs money but there are ways to level it up again, they do it with housing, pump expandable stuff under the affected areas. Rerun a new power supply to do away with the current underground power supply would be cheaper than upgrading the existing. Footpaths are one of your key functions, don't cut services in this area if at all possible. Potentially look at tendering process to include smaller building firms? Which could potentially do the work more cost effectively.

- Q12. **FEEDBACK ON THE ISSUES:**  
Why not donate the buildings to local charitable organizations to bring back to life. We have been looking for a small, historic building to renovate into an amazing community venue. There is funding available to performing arts groups who want to restore heritage buildings. This would be an amazing asset to our town. As to footpaths, we really need one down north beach road as many people like to walk/run there but the road is incredibly narrow and cars drive crazy down that road. I fear for the safety of my kids. I don't feel safe letting them ride their bikes or walk down there. There has been a fatality in the past.

- Council Fountain not to be renewed - Do NOT pay to repair or renew the Council fountain (COUNCIL'S PREFERRED OPTION) No
- Treasury Management Policies - Suggest Council make changes to the policies No
- Council Fountain - Continue to pay for repair/renewal costs for the Council fountain No
- Q12. **FEEDBACK ON THE ISSUES:**
- Personally I feel the Harbour board and history house have been left to long to fix, either branch out and see if anyone is keen to lease and fix up or sell and put the money into Dixon park or fixing the fountain. For the fountain maybe encourage more community volunteers programs or used the trainees at the polytechnic to build something to save us money and encourage businesses to put into their community A history garden would be cool with some fishing / mining / Maori artifacts and some picnic tables. Or look at cheaper options to fixed the current fountain as suggested on your Facebook page.

**Q13. YOUR FEEDBACK ON PROPOSED RATES**

What suburbs benefit from the footpath proposal? Not enough information has been presented to make a decision, Cobden is in need of some TLC.

---

**Q14. PLEASE ADD ANY ADDITIONAL DOCUMENTS** not answered

**YOU MAY LIKE TO INCLUDE HERE**

---

**Q15. YOUR ADDITIONAL FEEDBACK/COMMENTS**

Has the council thought about encouraging businesses to help with some vanity projects? Fundraising etc? Get the community spirit rolling, use the tools at the polytechnic with free labor, and creative thinking, carved sculptures, woodwork etc or even local artists. Embrace our history and make the whole town a walk through museum. Be good for the community and tourists. What has been done so far is good but there needs to be more.... Flood lights along the floodwall would be good too.

**Q12. FEEDBACK ON THE ISSUES:**

There are very few icons and land marks in Greymouth, most have been demolished for earthquakes reasons. The fountain should remain, every town as its point of difference and the fountain is a point of difference for Greymouth. The cranes have been repaired, the fountain celebrates water and light, get with it Council if our fountain were in Napier they would be embracing it, not have their eyes on it for a Council car park. \$8,000 per annum to maintain, you can have mt dollar, what other beauty is there is this town

---

**Q13. YOUR FEEDBACK ON PROPOSED RATES**

not answered

---

**Q14. PLEASE ADD ANY ADDITIONAL DOCUMENTS YOU MAY LIKE TO INCLUDE HERE** not answered

---

**Q15. YOUR ADDITIONAL FEEDBACK/COMMENTS**

Its great the new buildings in Greymouth but we need to keep the icons that make our town unique, the fountain is one of those. To avoid vandalism of the fountain a security camera could be installed in the council building itself directed at the fountain, that way vandals can be sent an invoice for any damage. I strongly disagree with the fountain being removed. it is the one lovely structures this town has. If every town city in the world disposed of their fountains what a boring landscape we are left with, nothing to embrace the joy of the water sprout and coloured lights at night, how sad. The disappearance of the garden on the grassed road island in Tainui Street is sad enough in itself, another cost cutting measure in what is becoming a very dreary town it seems.

**Q12. FEEDBACK ON THE ISSUES:**

Footpath from.dobson through kaiata to greymouth. Its the entrance to the town. On a highway. Cyclist path for safety and small motorcycles as 80km too fast for road. Make speed 70km from school to greymouth 50kms zone as too many near misses and speeders. Need more policing of this area for ratepayers safety.

---

**Q13. YOUR FEEDBACK ON PROPOSED RATES**

Rates to remain the same no increase. City to increase efforts around govt grants and tourism increased revenues

**Q15. YOUR ADDITIONAL FEEDBACK/COMMENTS**

A key goal for council is 'to provide a connection with our diverse, unique and colourful history'. A key issue is to sell History House but 'to continue to tell our stories through engaging exhibitions and displays.' We have made annual submissions to council over the past years pointing out the geographic diversity of heritage in the district and that Council could meet its key goal through the provision of minimal infrastructural support to some community level heritage providers. We have for example, annually, asked Council for \$500 toward the Blackball Museum. It is our belief that an annual small heritage fund of perhaps \$5-10000 should be introduced into the long term plan.

**Q12. FEEDBACK ON THE ISSUES:**

Submission on the Long Term Plan – Footpath Maintenance and Accessibility I am writing in support of the proposal to provide additional funding to maintain the current level of footpath service across our town. As a resident who supports a family member with mobility challenges—my mother uses a wheelchair—I see firsthand how essential well-maintained and accessible footpaths are for community participation, independence, and dignity. Currently, many of the footpaths and pedestrian crossings within the CBD are not wheelchair friendly. Cracked and uneven surfaces, uneven curbs, and poorly designed or missing curb cuts present daily challenges. These obstacles can turn simple tasks—like visiting a shop, attending an appointment, or meeting a friend for a coffee—into stressful and sometimes impossible missions for individuals who already face limited mobility. The impact goes beyond physical access. Inadequate footpath infrastructure isolates people with disabilities from social opportunities, contributing to loneliness due to isolation and reduced quality of life. For someone like my mother, who already experiences a restricted social life due to mobility limitations, safe and accessible footpaths are not a luxury—they are a necessity. Maintaining our current level of footpath service, and ensuring paths remain safe and accessible, is vital for fostering an inclusive and connected community. It allows all residents, regardless of physical ability, to participate in public life with greater freedom and confidence. I urge the Council to commit to the option that provides additional funding to maintain the current level of footpath service and to continue improving infrastructure so that it meets the needs of all members of our community. Thank you for considering this submission.

- Q12. **FEEDBACK ON THE ISSUES:**
- By your own costings the proposed Sale of both is unlikely to attract buyers with the intention of upgrading or developing either building. One could safely say any development that saves either building would be a minimum of three times at least your estimated costings. Your proposing to sell two rare assets that you have in Central Greymouth. Land that is or will be ultimately freehold blocks a rarity in Central Greymouth. From a developers point of view the cost, the fact that most of your neighbouring land is held by reluctant owners, and the over riding factor they are in a flood zone doesnt make it attractive. Personally I think you should demolish the buildings in due course and landbank the sites for the future.

**Q13. YOUR FEEDBACK ON PROPOSED RATES**

Rates are rates all you can do is trim the fat from the equation and the major elephant in the room for the entire Westcoast is waste and rubbish disposal which all three Councils wring their hands about. Collectively you have no choice to collaborate and and seriously start looking outside the box. My feed bakv is below in additional feedback comments on this matter.

**Q15. YOUR ADDITIONAL FEEDBACK/COMMENTS**

The elephant in the room for all three Westcoast Councils is rubbish. Regret-ably you all ultimately, got in to bed with Smart Environmental. ( Hokitika intially went with Masterguard and of course Greymouth also had an initial other contractor When I was involved at Buller District Council I was the lone voice opposed to the marriage with them. However it happened and there is no doubt they are skilled and slick operators that run good sites. But from the first month of the Contract in the monthly meetings they had their hand out. Your LTP states a 41.5 % increase. Yes and I am aware of graduated Carbon Tax costs being a contributor to overall increase. But as the contract costs increase are you getting a pro rata % decrease in rubbish going to landfill. = No your not. WHY IS THIS SIGNIFICANT. Well you also state your about to develop cell 4 at your landfill. If my memory serves me correct you only have Consent for five. So what happens after that. To engineer a new site the cost is substantial. Westport on the other hand lives hand to mouth and relies on Nelson. You run a satellite site at Blackball and in other areas . People rock in and into a large skip under the guise of recycling they thru bottles, cans ,cardboard and any other alleged re cycling where does it go. Does it go back to the main land fill and get sorted ? I very much doubt it I bet its straight into the hole. As an operator they (Smart ) look good. They have scale of operations and contacts to get rid of what now has a ready market for sale of recycled material. But over the years as much as we crow about Clean Green this alleged market has de minished. RUBBISH is the elephant in the room Costs will never decrease under the current methods used. COLLECTIVELY the three Councils have to energise different thinking and seriously look at Waste to Energy solutions . Costs getting it in offset partially by energy coming out. YOur on a hiding to nothing continuing down the exisiting path. Happy to discuss in depth with anyone who's cage is rattled by these brief thoughts if you so wish.

**Q12. FEEDBACK ON THE ISSUES:**

Re Fountain.: Yes she's old, she's been around a long time. But just because she is needing more TLC than usual we should not put her in the too hard basket and destroy her. Especially when there is no absolute certainty of her longevity. Please get some quotes to fix her - reasonable quotes. Then we can all make an informed decision. Give people time. A chance to look beyond rates for funding to repair her. Perhaps donations, fundraisers or grants. Give her time. I'm not supportive of 440 grand for a new fountain. That seems exorbitant. Some think our old girl is ugly, some think she's beautiful. But no one can deny that she's historical to coasters and she's ours. Please don't write off our old girl yet. Like the new Library, I'm sure she was built for the enjoyment of many, many generations to come. My grandparents, parents, myself, my children and my grandchildren have all had the privilege of her presence. How amazing would it be to be delighting even more generations. I find it disappointing there are counselors that prefer to condemn her. Perhaps they do not have the same connection? Please, put out tenders, keep the public informed and consider the history of our aging, yet delightful, historical fountain. Thank you for taking the time to consider my submission.

Q15. YOUR ADDITIONAL FEEDBACK/COMMENTS

The current state of State Highways 6 and 7 pose significant safety concerns and create a barrier between Greymouth and surrounding communities. Developing dedicated walking and cycling infrastructure would address several critical issues: Safety: The speed limits need to be reduced and more safe crossings provided for schools, etc. The highways' current design lacks adequate provisions for non-vehicular traffic, creating hazardous conditions for pedestrians and cyclists attempting to travel between communities. Community connectivity: Towns north of Greymouth are effectively severed from the regional centre, limiting access to essential services, employment opportunities, and social connections for residents who don't drive. Economic development: Connecting these pathways to the renowned West Coast Wilderness Trail would extend the tourism benefits currently enjoyed in Greymouth to surrounding communities. The existing trail already generates substantial revenue for the region through visitor spending on accommodation, food, and services. Public health: Safe walking and cycling infrastructure would encourage active transportation, contributing to improved community health outcomes and reduced healthcare costs. Environmental sustainability: Providing non-vehicular transportation options aligns with regional and national sustainability goals by reducing carbon emissions. This infrastructure investment would transform dangerous highway corridors into community assets that enhance safety, connectivity, economic opportunity, and quality of life for residents and visitors alike.

I am not sure if this is already a thing, but maybe making a official Greymouth District Volunteer group would be beneficial. I'm sure alot of people, especially some youth, wouldn't mind giving some time up to help maintain our town. It doesn't hurt to see who is willing to volunteer. Other than that, Greymouth is a wonderful little town. I enjoy living here.

Significance & Engagement Policy - Suggest Council make changes to the policy	Yes
Treasury Management Policies - Suggest Council make changes to the policies	Yes
Council Fountain - Continue to pay for repair/renewal costs for the Council fountain	No

---

#### Q12. FEEDBACK ON THE ISSUES:

You need to make more noise about the cuts to walking and cycling from NZTA/Simeon Brown. I'm also not interested in the sale of those buildings either way, I just know that once an asset is gone it can be hard to get back. It's a shame about the fountain, but that it is what it is.

---

#### Q13. YOUR FEEDBACK ON PROPOSED RATES

If anything they've been kept artificially low for too long.

---

#### Q14. PLEASE ADD ANY ADDITIONAL DOCUMENTS YOU MAY LIKE TO INCLUDE HERE

---

#### Q15. YOUR ADDITIONAL FEEDBACK/COMMENTS

Please put in some walking and cycling connections between Greymouth/Stillwater/Runanga. There's a real issue with the lack of safe connections. I've seen children walking along the railway tracks because it's literally safer than an 100km/h road, it's madness. The path could also link up with the Wilderness Trail, so would be a win-win. Also it's crazy have a 70km/h from Karoro school to Paroa School. You need to lobby NZTA to get that lowered ASAP. Would probably also benefit from having a 50 up to Shantytown, and a 70 through Marsden Rd. And there's also a real issue with people parking over footpaths, though this does seem to be improving. Please keep policing this.

**Q12. FEEDBACK ON THE ISSUES:**

Stormwater and sewage need to be fixed in the bottom end of Cobden.

**Q13. YOUR FEEDBACK ON PROPOSED RATES**

I agree we need to do more, and the rates have to go up. But I don't believe we needed a new library, and the money would have been better spent on areas where there a health concern. Such as areas of flooding and sewage backflowing. So, if the rates going up do not sort these problems, then I think the rate rise is a dam joke one of the highest in the country. People are feeling the pinch with the cost of living and now this.

**Q14. PLEASE ADD ANY ADDITIONAL DOCUMENTS** not answered

**YOU MAY LIKE TO INCLUDE HERE**

**Q15. YOUR ADDITIONAL FEEDBACK/COMMENTS**

The rate rise in Cobden is a joke our stormwater and sewage need fixing, and our footpaths are a disgrace. But I feel nothing will be spent in Cobden. In times of heavy rain, the bottom end of Cobden gets flooded and the sewage backflows onto people's properties and people can't use their toilets, water and sewage flow under houses and through garages and yet nothing is done. This is a health issue that I think the government needs to be made aware of. If the rate rise was going to fix this issue, then I would be all for it, but I think the rate rise will go into more pet projects such as the library or a new council chamber. I really hope not, and I hope you start getting the issues fixed that the people really care about as it's such a great place to live.

**Q12. FEEDBACK ON THE ISSUES:**

Sell the old buildings this would generate some money that you don't have to raise rates for. When the fountain dies don't fix or replace it it's useless. You should can the curbside audits, rubbish police are you kidding why not pay them to pick up litter next to our rural roads it's bloody filthy out here everywhere looking pretty third world.

---

**Q13. YOUR FEEDBACK ON PROPOSED RATES**

We are sick of the high rates here ever rising for ecoli water that's taken from right next to a dirty landfill. The litter and rubbish everywhere in this region is disgusting, do something about it pay some plebs to pick it up.

**Q12. FEEDBACK ON THE ISSUES:**

I am writing on behalf of our local Greymouth Badminton Club to strongly oppose the proposed \$4500 annual fee for small community sports clubs to hire the Westland Recreation Centre. Our club already pays to hire the venue we use — which is, importantly, the only suitable location available to us. Introducing an additional annual fee on top of what we already pay for court hire is not only unnecessary and unsustainable, it is unfair. In its current form, this proposal would effectively triple our current court hire fees and bankrupt the club within a year. Badminton clubs like ours are small, volunteer-run, and operate on limited budgets. Every dollar goes toward covering venue hire, basic equipment, and ensuring participation remains affordable for our members. This annual fee would undermine our ability (and that of many other codes) to continue operating and offering accessible sport in the community. It penalises clubs that are already paying their way, and it risks driving away participants at a time when physical activity and community connection are more important than ever. We respectfully ask that the council remove this fee proposal from their long term plan. Our position is supported by the West Coast Badminton Association. S Bushby Secretary - Greymouth Badminton Club

**Q15. YOUR ADDITIONAL FEEDBACK/COMMENTS**

Hi team 😊,thanks for letting me have my input input on the footpaths around greymouth.they are in pretty bad shape and have been for quite some years now, some on them especially down the main road and on shakespeare st where I live are awful...could you imagine being a child trying to scooter,bike or roller blade, well roller blading is not a option at all nor is skateboarding,walking isn't any easier the is so many uneven surfaces everywhere I've even tripped on a few awell.my sons 10 and I've been here for coming up 9 years now and we love the town but ive always said greymouth has one of worst footpaths out of anyway even westport paths are better.I've never seen any maintenance that's isn't just gravel thrown on the paths who's idea was that ?, definitely should of been sealed last year and now more gravel thrown on it it's all threw out house all the time down the drive in my shoes it a right nightmare. definitely need them all sealed so kids can get out and active more kinda hard if you gta carry your scooter etc just to go some where to ride it,thanks heaps Chrissy Kelly

- Q12. **FEEDBACK ON THE ISSUES:**  
Would be good to see the history house building and Harbour building sold to someone who has a passion to restore them. Maybe the fountain could be gifted to Shantytown, who could display it with details of its history, they have plenty of space out there. Or if we had a museum (which I strongly believe we should have) it could be displayed there. Recently had a trip to Otago, every small town had a museum and some really good ones, albeit small. I think Greymouth needs one, the tourists would enjoy it and we do rely on tourists for our economy.

---

**Q12. FEEDBACK ON THE ISSUES:**

1. I would like to see continued improvement to our footpaths and cycleways and \$250k as a great investment into an asset vital to building a healthy and active community. 2A/2B. I love heritage buildings and if Council were able to lease/produce a space for creativity/art/learning OR integrate the buildings into a tourism project, these would remain an asset. It's vital for towns to keep some buildings for the sake of keeping township character however these buildings are a bit out of the way so bringing reason and purpose to keeping them would be a greater investment than selling these buildings with the risk of having them demolished. 10. Policy is expensive to re-write, therefore if Council is able to keep policy as it is without there being any negative impacts of future development then I support keeping and adopting the current documents.

**Q13. YOUR FEEDBACK ON PROPOSED RATES**

The rate rises are getting out of control. Looking at the proposed rises in the coming years our rates could go up over 50% in total and this will be less money that is spent locally in the towns shops etc. The rate rise should be in line with the current inflation rate and the council should learn to live within its means. Building a 20 plus million dollar library when there is a huge amount of outstanding instruction that needs fixing is this a good spend of our money.

---

**Q14. PLEASE ADD ANY ADDITIONAL DOCUMENTS YOU MAY LIKE TO INCLUDE HERE** not answered

---

**Q15. YOUR ADDITIONAL FEEDBACK/COMMENTS**

Dog fees are already one of the dearest in the country and to increase them again along with another big rate rise will only cause more people not to register them and only cause more problem. As stated in the article in the Grey Star recently about the rise in cost. How much is it costing the rate payers by having the animal control officer drive back and forward from Hokitika daily in the rate payer founded work Ute? And where is the dog registrar money actually going. Is it being spent else where? The council needs to look at founding this postion by other means weither there is s fee for calls out or something similar

---

**Q15. YOUR ADDITIONAL FEEDBACK/COMMENTS**

We once held a Selected Owner Policy with the GDC which cost us a lot of money to achieve. GDC took photos of our set up to show others hoping to achieve that status.The GDC cancelled this option.Other councils on the West Coast and New Zealand have this option and we would like to see it be reinstalled by the GDC.Your dog registration is one of the dearest in NZ-for what-not even poo bags or bins. Twizel has a fantastic set up for this where only poo bags can be deposited.Why should the revenue received for dog registration be used for other animals apart from dogs.-stock control should be paid for by the owners of the wandering stock.Its unfair for responsible owners to have to pay for those that are not.

**Q12. FEEDBACK ON THE ISSUES:**

My interest is in retaining the two heritage buildings owned by Council, working together with community groups to find a sympathetic buyer and end user. Greymouth is unique as the CBD is 'book ended' by two established heritage precincts. To the east, the railway precinct containing cycle way hub, station, custom house and signal box. To the west, coal river park containing the victorian era port, port cranes, harbour board building, Gilmer hotel and the County Council building. The new library and Regent theatre site on the periphery. Within the CBD we have a recognised collection of heritage buildings and new structures that reflects our culture and past. The French have a word "Milieu" , 'a surrounding culture'. I ask that council works with the community to enable these features to be maintained, recognising the value of our past as we plan our future. The Grey Heritage Trust has over the last 10 years raised nearly \$750,000 to restore the two harbour board cranes and a further \$340,000 to provide a digital interpretation game that is destined for the new library. It took time, perseverance and above all, collaboration with council. Working together. I accept the buildings do not have an existing use for Council, but they may well have an alternative use for other community groups or commercial entities. Once they are gone, they are gone- forever. The Harbour Board building may well have a future for the expanding Coal River park precinct. I ask that Council collaborates with the Grey Heritage Trust and other like minded groups, to market the buildings in a timely manner , so they may be restored for a new use.

**Q12. FEEDBACK ON THE ISSUES:**

History House and Harbour Board Buildings need to go as have not been used for some time and too expensive to keep. Fountain needs to stay as so important in our town. We all have stories of the fountain that we still share. Footpaths are a disgrace and dangerous for all users.

**Q13. YOUR FEEDBACK ON PROPOSED RATES**

Rates rise is a disgrace. We were sold a library then it turned into a whole commercial venture. Council should keep in their lane as not a business.

- Q12. **FEEDBACK ON THE ISSUES:**
- Gain social capital from mining, use to enhance community wellbeing- improve Dixon Park Increase councils internal capacity, stop using contractors, who have no accountability, as ratepayers we are being ripped off, employ staff to do manual work. A lot of the data is 3 years old,poor effort on council,should have current facts and figures Library was falsly represented and majority of submitters previously voted against it, library has now turned into a business venture,council needs to stick to basics. Shame to once again split the CBD.
- Q13. **YOUR FEEDBACK ON PROPOSED RATES**
- disgraceful in this economic climate, suggest higher rebates for low-income families and elderly on fixed income. Keep the fountain

Council Fountain not to be renewed - Do NOT pay to repair or renew the Council fountain (COUNCIL'S PREFERRED OPTION)	Yes

**Q12. FEEDBACK ON THE ISSUES:**

I agree with the back to basics plan for the council. I would like to see it being back to basics - done well. Lately a number of my interactions with the council have been less satisfactory - eg - I was jumped at and my bag bitten by a dog while I was walking down the foot path - I phoned and left a message that was never answered - my concern was, it was near a school bus stop and so children may be at risk - I note on social media that that dog did go on to bite someone. I have been told 4 times that my properties did not comply with separation which they do - hopefully this is now sorted. I do think the separation has taken too long and communication on the matter from the council has been very very poor and so made the problems we face much worse. I have also been told on the phone that my street is not in the Grey District - that tells me staff are not engaged. Priorities for me are the three waters, transport incl footpaths and cycle ways, rubbish and recycling, and general presentation of the district - mowing, greenspaces etc. The Pool's and Library are great public assets available to everyone - I question grants and rebates to individual clubs and societies. - It would be nice to do these if we could afford them but I expect they should be cut for the foreseeable future.

---

**Q13. YOUR FEEDBACK ON PROPOSED RATES**

We have been living beyond our means and must pay for it somehow. Past councils were not realistic on rates rises so I guess we must pay. I am concerned about the cost of pensioner housing being added to rates. As a rate payer and pensioner myself it's a hard pill to swallow that I have provided for myself and will go without something in order to pay heavily increased rates - but here I am subsidising housing for someone else it seems very unfair. I definitely think the cost must be covered in rent - it is fortunate that the housing is available and at cost will be still less than market rate of rent.

**Q15. YOUR ADDITIONAL FEEDBACK/COMMENTS**

Climate change is going to be an issues for us and I do think that we need strategies in place now to help mitigate the likely increase in areas flooding- we should not be building further in at risk areas whether it is housing, business or infrastructure. I question the currently postponed upgrade of Dixon park in a flood risk area. I don't expect the fountain to be replaced and wonder if that is a more climate friendly area for the town's social gatherings. On a positive note I have used the snap send and solve a couple of times to good effect and I am impressed with the overall presentation of the plan and the consultation document - both are easy to read and follow.

**Q12. FEEDBACK ON THE ISSUES:**

The Westland Recreation Centre user charge increase. We need to stop the overwhelming charge that we would face to run volleyball on the coast! We would have to look at other venues if this charge is passed. Volleyball has two big tournaments per year the Coaster and best in the west, these bring 12 teams from away to our district which spend their time and money in Greymouth accommodation and shops. \$4500 would stop us hosting these events, especially when we helped fund raising for a new stadium so we could host more events, and every year we have had to cover raising court hire fees. This amount would double our overall cost to run the sport on the West Coast, when we already supplied all of the nets, poles and equipment to the Westland Recreation centre for use, which we don't charge for general use. We are increasing the standard of the sport locally and have had backing from our national and regional bodies to increase player numbers here for the whole community. One of the driving reasons on building a new stadium was so that local associations like volleyball, basketball and badminton could have the chance to host tournaments locally as the old facility was not up to national standard, thus bringing in much need revenue to local business in the winter months. I feel this is short sighted as we continue to bring more events to Grey like the Westside Blitz etc As a former President of basketball and current vice president of volleyball, I feel this will stop the access to sports for our youth in the district and this should be removed from the LTP. Thank you for your time Sports mad volunteer Craig Stanton

Having recently moved to Greymouth the development of the new library was a big draw card for myself and my partner. Also seeing the development of Kaiata business park. They both show growth in the area which is part of which made Greymouth an attractive location for us. I strongly agree with maintaining the program for footpaths and cycle ways, and building on them long term. Having safe alternatives of walking and cycling is a huge benefit to people and the community as a whole. We have been discussing the possibility of a cycle way from Greymouth being continued out to Kaiata and Dobson and the Brunner bridge. The benefit for commuting and recreation would be huge, both for those choosing to use the path and those driving on the road (by having cyclists on a path or cycling lane as opposed to the road). Kind Regards, Ellen Rankin

**Q12. FEEDBACK ON THE ISSUES:**

I fully support the GDC's preferred option to increase its own spending on footpaths and cycleways to make up for short falls in funding from central government. In relation to footpaths and cycleways I, like many others in Greymouth and nearby, would like to see the development of a shared pathway along the south bank of the Grey river, connecting Greymouth, Omoto, Kaiata and Stillwater (plus Taylorville via the Brunner bridge). Such a pathway would provide a far safer and more pleasant alternative to SH7 for cyclists and walkers, and would not only benefit locals but also help draw in more tourists. Given the comparatively high fuel costs on the West Coast, making it more attractive for the local residents of the various Grey Valley communities to cycle into Greymouth for work, study or play would help reduce household costs, and have a number of environmental and health benefits too. A lot of the likely corridor for such a pathway would probably end up being on Kivirail owned land and also on riverside margins perhaps controlled by the Westland Regional Council, so the GDC's role might not necessarily be as a major funder or planner, but rather as a background supporter and mediator. Also, the initial pathway doesn't have to be gold plated. It could begin simply as a fairly basic route with a lot of support from local volunteers and sponsors within the local business community. Depending on its success, and initial basic pathway could be improved and modified over time, perhaps at very little cost to local ratepayers.

**Q15. YOUR ADDITIONAL FEEDBACK/COMMENTS**

We are relatively new to the West Coast and one of the reasons we settled for Greymouth over the likes of Reefton or Hokitika is our excitement over the new library being built. We can see the benefits that this new community hub will bring to the community and see it as a vote of confidence in Greymouth. We're very much looking forward to its opening and will be regular users. The current library building is very uninviting and well beyond its use-by date.

The feedback I would like to raise in in regards to the animal control rates, I see these are once again going up - and again we have nothing to show for these high rates. Firstly the Dog pound facilities are in a horrible condition and have been this way for a long time, same as the dog park, this is a pretty poor example of a dog park, and again has not had any work done to it - some maintenance and upgraded equipment would go a really long way. Its very hard for us animal owners paying the fee's to understand why and where our money is even going? I did see in the plan that they look to update the dog pound in year 6 of the plan, this just isn't enough for the paying dog owners who have been paying and will continue to pay to not see change for such an amount of time - where has all the money gone thus far - as it doesn't look like it has been used in years. Our prices even before this raise are more than both Buller and South Westlands rates. And we are also far more than Christchurch council rates - and look at the beautiful facilities on offer all over the city. Most other councils offer a responsible dog owner rate which is less than other rates - this would be a fair option to have for our council. There is also a substantial amount of people in this town that do not have their dogs registered or wont pay their fee's, how is this fair to those that do pay their fee's on time, yet still are not rewarded with anything. Its just really hard to see these rates rising and seeing no changes or benefits to dog owners. Thanks for reading my submission.

Treasury Management Policies - Suggest Council make changes to the policies	Yes
Council Fountain - Continue to pay for repair/renewal costs for the Council fountain	Yes

---

**Q12. FEEDBACK ON THE ISSUES:**

The loss of the beautiful old buildings would be a sad sad day. There is an opportunity to make an awesome quarter down that end of town. Warehouse markets, art studios, make it a destination down that end. Take advantage of all Of the talent me have on the coast.

Significance & Engagement Policy - Suggest Council make changes to the policy	No
Treasury Management Policies - Suggest Council make changes to the policies	No
Council Fountain - Continue to pay for repair/renewal costs for the Council fountain	No

---

**Q12. FEEDBACK ON THE ISSUES:**

Sell off old and expensive buildings. They are old and cost too much for rate payers to maintain. Remove the Fountain and plant tree and garden. Costs less to maintain for Rate Payers

---

**Q13. YOUR FEEDBACK ON PROPOSED RATES**

The council needs to maintain infrastructure for the future, there is more housing going ahead. Keeping rates down, people on lower to middle incomes will not be able to keep paying high rates. The rate payers need to stop paying for maintenance on old buildings and fountains. Greymouth needs more modern buildings and new business to move forward. Too many old buildings have been let go, maintenance costs are high and makes the town look bad. Not inviting for tourists or local people to shop. Why is it taking so long for The Royal Hotel and more old buildings to be pulled down, this has been happening for years. Too slow and dangerous.

---

**Q14. PLEASE ADD ANY ADDITIONAL DOCUMENTS** not answered

**Q15. YOUR ADDITIONAL FEEDBACK/COMMENTS**

I have been complaining for years about the amount of chlorine in our water. I get the standard response about it being the recommended dose. My issue is the havoc it causes with our skin, my son and I being prone to excema. We can go anywhere else in the South Island and don't experience the same amount of dryness in our skin after showering. Why is that?? This isn't just a new issue since the water problems. I believe that GDC is using more chlorine than other regions. Surely it cant be good for anyone drinking and washing in that amount of chlorine?

#### Q15. YOUR ADDITIONAL FEEDBACK/COMMENTS

We wish you to amend your rates remission policy. Continually increasing rates with no corresponding uptick in services provided here has put a stranglehold on many small businesses for no tangible benefits. Your policy excludes places primarily for people aged 18+, or for entertainment - which affects all chartered clubs, including ours. We ask that you recognise the importance these Clubs play in your communities as they are not "just a booze joint" For instance the Blackball Workingmens Club building also houses the Black Ops Charitable Trust, which is the local opshop which puts funds back into the community. On one occasion the opshop also paid outstanding rates owed by another community organisation. Beneficiaries of the Opshop have included the local school, the Domain, Bowling Club, Community Centre and more - without the use of the hall this could not happen. The Club charges a koha of \$75 per month for the Opshop to use an office and the hall space - this covers lighting and heating. As well the Blackball History Group and Senior Citizens use the building for their meetings, Additionally the Blackball Community Swimming Pool holds its vital annual fundraising night in the hall. The Blackball Library is situated in a front room, and many locals have chosen to have their funerals and other significant events such as community meetings held there. It has been acknowledged as the de facto community centre in the likes of New Zealand Geographic. The club provides a home to these groups that would otherwise have to go elsewhere. The Blackball Workingmens Club has written into it's constitution that we do not operate for pecuniary advantage. We still pay the same rates as other commercial operators despite their money going to private interests - in our case the income goes back into the Club. Our members are mostly local and already pay rates at their own homes. We ask you to consider amending your rates remission policy to allow Clubs like ourselves some respite from incessant cost rises, and as a small acknowledgement of the important functions our facilities provide not just for members but the wider community. We do not provide accommodation as extra income nor operate a full-time cafe/restaurant. We do not disagree with paying for services. Please amend your remission policy so other Clubs, similar to ourselves, can continue to operate. With respect  
Mike Simpson President Blackball Workingmens Club and MSA.

**Q15. YOUR ADDITIONAL FEEDBACK/COMMENTS**

Lake Brunner Road needs more pavement remediation work that the NZTA needs to be helping to pay for more than they are, if they have been at all. This is because it has become a key freight route for out of town based HPMV units who pay their dues to NZTA while damaging our road.

**Q15. YOUR ADDITIONAL FEEDBACK/COMMENTS**

Hi there GDC I wish to protest at our planned rate Bill Increase of up to 20% I have not encountered any specific reason except that CV's have increased and there have been "Waste Water Deferrals" which are now "A Focus" I did submit on your Plan to build a library, asking instead that your supply "Us with a Safe water supply" I believe that you spent the Labour and Coalition Govts. water Monies on a Lake Brunner Walking Track and The Library. "We now have to borrow \$1mill for a New Pump re Cobden waste-Water to Preston Rd which has been reported "To Leak" into the Lagoon!! What Else?? Fiscal jurisprudence should be Your Focus

**Q15. YOUR ADDITIONAL FEEDBACK/COMMENTS**

I would love to see funding going towards Dixon Park, this is such a beautiful area that is consistently used and loved by all of Greymouth. We are in desperate need of things for children to do here and letting this park rot away to its current state is such a shame. Time to get with the times like other councils and spruce and update the park. Water play areas would be fab and a new play area

- Q12. **FEEDBACK ON THE ISSUES:**
- Grey District Council let's just stop flattening our Historic buildings. We see what other Regions have done bringing buildings back to their former glory I.e Hoki Library and now working on the old Government Building where Richard Seddon stands. I just hope more is put into preservation and not ruination in Greymouth. Dixon Park an upgrade sure. No such thing as health and safety back in the day. And when Tony Kokshoorn got the fountain revamped. It brought back a lot of childhood memories. Having the fountain where it is and working seems right! My opinion

**Q15. YOUR ADDITIONAL FEEDBACK/COMMENTS**

Roading:- several phone calls regarding slumping of road on corner of Collins street and Packers Quay. Numerous phone calls, assured messages passed on. This has got to be damaging to my and many others hitting this crater! Also Tip Road Blaketown side, in someone's wisdom a wall has been erected on river side of road. Please do not tell me it is for safety, I have lived in Collins street for 60+ years. And back sections never flooded. Now man wisdom puts up a wall when storm run off cannot drain off road to river. Man wisdom then decided to slope Tip road so run off goes into back sections of Collins street. Sure we have had people from Council talk with us and see the issue with sent photos and videoed footage. All very sympathetic, and promises, but here we go another Winter looms and Council trucks drive past plus vast Freedom Campers where we run for cover if in back sections of and their wake comes over our fence line. No, it's not our issue it's who ever built and planned this pathetic plan. Can this be addressed. Also man in caravan parked in Carpark end of Blaketown Rugby Park and Arthur Fong. This squatter has been sucking off our rates for the last 6 mths. Explanation from the squatter is he pleads homelessness! If council have taken the time and seen the flash caravan and Ute. I beg to differ. He should not be allowed and hinders parking with the sports the park is used for. Players and supporters! Freedom campers don't get the freedom this man has got. He should be made to leave. Start paying like rate payers do. Thank you, and hope some of our concerns be addressed.

The road from the lake Brunner boat ramp to the yacht club must be sealed. It's long overdue and the dust caused from it is a known hazard for all residents including the kids at the school.

Significance & Engagement Policy - Adopt the Significance & Engagement Policy as it is (COUNCIL'S PREFERRED OPTION)	Yes
Treasury Management Policies - Adopt the Treasury Management Policies as they are (COUNCIL'S PREFERRED OPTION)	Yes
Council Fountain not to be renewed - Do NOT pay to repair or renew the Council fountain (COUNCIL'S PREFERRED OPTION)	Yes
Revenue & Financing Policy - Suggest Council make a change to the policy and associated LTP and Supporting documents	No
Significance & Engagement Policy - Suggest Council make changes to the policy	No
Treasury Management Policies - Suggest Council make changes to the policies	No
Council Fountain - Continue to pay for repair/renewal costs for the Council fountain	No

**Q12. FEEDBACK ON THE ISSUES:**

If the fountain is to be removed, what would this area look like in the future. Maybe, provide solution (artist impression) or ask for ideas for the future before making the final decision. Just a BBQ area, tables / chairs for picnics, flower gardens, and small, tree plantings? Keep it simple but nice as the tourists drive past or stop for a recreational, break.

**Q13. YOUR FEEDBACK ON PROPOSED RATES**

I have no problem with the forecasted rates rise over the next 9 years, but if the councils amalgamate for better water, then would this effect the forecasted rates increase? If so, this is not mentioned within the LTP. there is no forecasting within the rates increases on where and when the water main repairs are going to be started or completed. Would the rate payer be happier to see where and when their rates money is going to be spent rather than see graphs.

**Q14. PLEASE ADD ANY ADDITIONAL DOCUMENTS YOU MAY LIKE TO INCLUDE HERE** not answered

**Q15. YOUR ADDITIONAL FEEDBACK/COMMENTS**

Parks and Reserves, it is mentioned within the LTP that reserves will be maintained to a standard. May I ask, what does standard mean? Council should also mention within the LTP, what they have planned for the local parks for our future generations to come. This includes all parks and reserves within the Grey District not just Greymouth. If Grey District had well maintained and upgraded parks and reserves, then would this be beneficial to our children and also encourage new families to move to the district. Look at Hokitika's Cass Square Park. This would have cost the rate payer, but is well occupied by families. Maybe consider extra funding towards our parks and reserves.

**Q15. YOUR ADDITIONAL FEEDBACK/COMMENTS**

Moana issues ,as your supposed crown jewel of the west coast there is a serious lack of general maintenance. Numerous footpaths need resealing and holes filled. General maintenance of gutters and footpaths are not cleaned regularly this is one of the core functions of a council The access road to the yacht club requires sealing as Moana gets busier year after year the rd can not sustain the vehicle movements being shingle. The take from the boat ramp fees would surely off set some of the cost to carry out this work. The Moana resource centre needs to be open on long weekends as most holiday homes are full and people need to have the ability to dispose of there rubbish as opposed to it being left at the gate. Once again this is a core function of a council

**Q12. FEEDBACK ON THE ISSUES:**

Please can you consider using some funds to seal the public dirt road along the Moana foreshore. The population has increased so much here and the number of visitors and holidaymakers now using this area it is time to consider the amount of use this road gets and the need for it to be sealed. It is a serious health hazard. Breathing in that dust is not good for anyone. People using the beaches or those that live along the road and beyond are subjected to the dust clouds.

---

**Q13. YOUR FEEDBACK ON PROPOSED RATES**

Happy to keep paying the rates but would like to see the dirt road along the Moana foreshore sealed please.

---

**Q14. PLEASE ADD ANY ADDITIONAL DOCUMENTS YOU MAY LIKE TO INCLUDE HERE** not answered

---

**Q15. YOUR ADDITIONAL FEEDBACK/COMMENTS**

I would seriously like you to consider sealing the shingle road access along the foreshore in Moana. It's currently a dirt road from the main boat ramp to the yacht club. Everytime a vehicle drives down there so much dust is generated, travelling through the air and across all the houses that front the lake and beyond. The dust goes inside the houses and is unsafe and unhealthy to breathe no doubt. During the hot summer months when there's minimal rain, the dust clouds linger and cover the house and everything inside with dust. There's no way to ventilate your house during these months as you can't leave windows and doors open. Also it's hard to tow boats down this road to the yacht club to launch as they get covered in dust as well. With the ramp fees that we pay for the main Moana ramp plus our local rates I think it is only fair that the sealing of this road be considered.

Ward Street, Runanga, Drainage, needs to be urgently done, as it is a very significant problem to residents, of Runanga, the drainage is also doing significant damage to the properties of Ward Street between McGowan Street and Hall Jones Street, since the Runanga Club sealed their car park, it is also on a severe gradient down from the school on the opposite side, and there is, major storm water issues with the current council system, it is in desperate need of repair, as we have been trying to get it fixed for a long time, Council has costed out the repairs, but they most desperately need to be done. The water overflows from the storm water drain at the corner by the swimming pool, Ward and McGowan and floods the whole streets properties. When the Council remediated the creek, they blocked a drain, that runs along the back of the sections of Ward Street in the Runanga Clubs Car park and berm. Every different manager in the Compliance Department over the last several years commissioned 3 different investigations finding the faults, and none have been acted upon. This is causing huge distress to ratepayers in area. Please Please, get this sorted now.

- Q12. **FEEDBACK ON THE ISSUES:**
- Our community has lost a lot of historical buildings etc, we need to look after what we have not continue to tear down. The fountain should be kept, it holds a lot of memories for many West Coast families, it was a treat to park outside as a young child on a Friday night with the family and watch the light change colour and the various stages of the fountain pumping its jets of water. It has an art deco feel and should not be as much of a burden as stated to keep this nostalgic monumental fountain going for the people of Greymouth.
- Q13. **YOUR FEEDBACK ON PROPOSED RATES**
- Rates should be kept as low as possible, people are struggling to make ends meet.

Council Fountain not to be renewed - Do NOT pay to repair or renew the Council fountain (COUNCIL'S PREFERRED OPTION)	No
Revenue & Financing Policy - Suggest Council make a change to the policy and associated LTP and Supporting documents	Yes

**Q12. FEEDBACK ON THE ISSUES:**

I remember reading a Letter to the Editor in the Greymouth Star which stated (from a prior Council Animal Control Officer) how appalling the conditions are in our current dog pound. And that Council is not meeting current humane conditions for housing dogs. We can't wait for 6 years to address this! That's appalling! I do not want to live in a District that mistreats lost dogs. The new dog pound must be brought forward and the funds found to do so; it should be addressed immediately.

---

**Q13. YOUR FEEDBACK ON PROPOSED RATES**

This week the newspaper reports the Council is 'dismayed' at a \$3.4m deficit in the budget. Oh, this just makes me laugh. You're 'dismayed'? Oh, you poor things. A few years ago the deficit was reported in the Greymouth Star as over \$7m when your golden boy, the former chief executive was at the helm, the most incompetent chief executive that was ever appointed. You appointed the person who took this community to that level of debt – and the Mayor 'wrings' her hands over the amount of the rate rise. She caused this situation. She was the Mayor who appointed the former chief executive. And then took nearly 4 years to take action and rid the community of the most appalling chief executive Grey District has ever had the misfortune to be foisted with. You're trying to tell us the unsustainable and appalling rates increase is due to increases in inflation and increased costs. You identify increases in insurance, auditing, electricity and contracts for services. Of course they've increased since Covid! A sensible and judicious Council with a competent finance team would have seen this coming and made plans to meet the situation. But no. Grey District Council had been restructured to within an inch of its life to the point where the entire finance team resigned after being led by a series of incompetent finance managers, consultants who were 'mates' of the former chief executive. Well your inability to reign in his excesses have come home to roost. My household is facing a 16% rates increase this year. Your LTP document tells me we're facing increases over the next five years of 10.09% in Year 2, 10.31% in Year 3, 11.6% in Year 4, and 11.38% in Year 5. After all these rates rises, my household will be paying about \$7,000 per annum in local council rates. It's unlikely that we will be able to afford to live in the Grey District by then.

**Q15. YOUR ADDITIONAL FEEDBACK/COMMENTS**

I agree the old County Chamber building which housed the Museum should be sold. I do not support the way Grey District Councillors have shirked their responsibility towards the community in their attitude towards the Museum collection. Councillors do not value it and have been unable for many years to make a decision about the direction of the Museum. For the 11 years I have lived in the Grey District, successive Councils have refused to take responsibility for the Museum and its collection. We now have a situation where the new Library building, well underway in its construction, is being suggested in the LTP Consultation document, as a potential location for storing and displaying the Museum collection. Do you even know the meaning of the word 'planning'? I won't even ask if you know what the word 'strategic' means. I have never witnessed (in 20years of managing and leading libraries) such an arse-about way of constructing a library building! Months into construction, " Consideration is being given to the possibility of incorporating museum display and storage areas into the new library building" . Museum collections require environmentally controlled environments; you can't just shove them into a spare cupboard! Wherever the Museum collection is stored, at the very least, alternative fire suppression methods need to be considered to minimise potential damage caused by water sprinkler systems, especially to a collection like History House Museum which contains a lot of paper-based material. I'd love to see the faces of the architects and builders when you say "Oh, we just want to include some museum storage space". If anything will encourage me to leave this District, its the incompetence of the Councillors and the subsequent mess they get this community into! Oh – and how could I forget; the cost of local council rates too.
